

## ICBC Claims

### How It Works

If you have been in a recent motor vehicle accident, have reported a claim, and received a claim number, then you may start physiotherapy treatment. You do not need a doctor's referral to commence physiotherapy but we recommend you see your regular family physician to review your injury and to determine if further medical testing is required.

### Cost

ICBC will pay our clinic a portion of the regular treatment fee. We charge a *user fee* of \$45 in order to cover the whole cost of the treatment. ICBC will initially approve up to 20 treatments over a 4 month period. If further treatment or an extension is required, your physiotherapist can request this from ICBC. Be aware that most extensions require a physician's note by ICBC.

### Communication

We need to know if you have a lawyer prior to starting treatment as this may change how your physiotherapist is able to communicate with ICBC. If at any point during your treatment you decide to acquire a lawyer then please inform us of this at your earliest availability.
